Summary

Computer Science Engineering student with strong foundations in Data Structures and Algorithms and hands-on experience developing full-stack and AI-powered applications using Java, Spring Boot, MERN stack, and modern web technologies. Solved 660+ DSA problems and actively mentor peers in programming and problem solving. JLPT N5 certified and currently preparing for N4, with a strong interest in Japanese language, culture, and the Japanese technology industry. Aspiring to build a software engineering career in Japan by combining strong technical skills with continuous Japanese language development.

Education

B.E. Computer Science Engineering

Easwari Engineering College, Chennai

2024–2028

CGPA: 9.25

Internship

Intern – 1M1B (One Million for One Billion)

Green Internship

- Contributed to sustainability-focused initiatives and collaborative project work.
- Gained experience in teamwork, problem-solving, and real-world project execution.

Technical Skills

Languages: Java, C, C++, Python, JavaScript (Learning)

Web: HTML, CSS, React, Node.js, Express.js, MongoDB (MERN), REST APIs

Core CS: Data Structures & Algorithms, Trees, Graphs, DP, Recursion, Sliding Window

Tools: Git, GitHub, VS Code, Postman, Figma, Canva, Google AI Studio

Database: MySQL, MongoDB

Languages Known: English, Hindi, Urdu, Tamil, Japanese (N4 Ongoing)

Projects

Resume Builder

JavaScript, HTML, CSS - Live Demo

- Built a privacy-focused resume builder with real-time A4 preview and multiple customizable templates.
- Implemented dynamic resume editing and high-accuracy PDF export for professional, print-ready resumes with consistent formatting.

Ride Hailing System

MERN Stack, Google Maps API, JWT

- Built a ride-booking platform with real-time GPS tracking, driver matching, and automated fare calculation.
- Implemented role-based dashboards, JWT authentication, and safety features including SOS, OTP, live sharing, and route monitoring.

AI Health Chatbot

JavaScript, APIs - Live Demo

- Built an AI-powered health chatbot providing interactive assistance across mental wellness, nutrition, fitness, and symptom education.

Employee Portal System

React, Tailwind CSS, APIs

- Developed an employee management portal with authentication and real-time API integration.
- Implemented dashboard analytics, digital signature capture, and identity verification features.

Voice-Assisted E-commerce Website

Google AI Studio

- Enabled voice-based website navigation and accessibility-focused interactions.

Achievements

- Solved 660+ DSA problems across LeetCode, CodeChef, GeeksforGeeks, and HackerRank.
- LeetCode Student Ambassador at Easwari Engineering College; mentoring juniors in DSA.
- **JLPT N5 Certified** – Successfully passed the Japanese-Language Proficiency Test (N5); currently preparing for N4.
- Patent Filed: *Purpose-Driven Local LLM Evaluator*.
